

Custom Pendant Station Ordering Instructions

Use the pendant station diagram on the following page to design your custom pendant. You can fill out the form either in this editable PDF file directly, or print out the form to complete. Email completed forms to the ASI Customer Service team @ Orders@sourceasi.com.

- 1) Begin by completing the form with your Contact Information allowing our Team to be able to provide accurate quoting or address any questions about your order promptly.
- 2) Select if you need a single or double row pendant station. Use the vertical columns to indicate your Button and Contact choices. For a Single row pendant station, you will fill out the diagram in the Blue Outline area only.
- 3) In the diagram Circles, indicate the type of button or switch that is needed in each precise location.
 - a. Example – Up Button, Down Button, 3 position key switch, etc.
- 4) In the spaces next to each Circle, indicate the number and type of Contacts needed. Each button has space for up to three contacts. If you require a contact in a specific location, please indicate this on the diagram.
- 5) **Pre-Wiring (optional)**
If you would like your pendant pre-wired, please complete the wiring section of the form accordingly. *A wiring diagram will also need to be submitted with this form for any pre-wiring requests.*
