

DESCRIPTION

The **STNK series** is a tongue (or key) operated safety interlock switch designed to fit at the leading edge of sliding, hinged or lift-off guards. With its dual entry slots and rotatable head, the versatile STNK series can offer up to eight different actuator entry options. Operation of the switch is achieved through the insertion of a specially profiled stainless steel key that is permanently mounted to the guard door. Available with one NC safety contact or two NC contacts, the STNK series is sealed to IP67 and has various conduit entries. A blanking plug is supplied for the unused key entry. Available accessories include a 90° actuator.

TECHNICAL DATA - HOUSING

Made of glass- reinforced polymer, self-extinguishing, shock-proof thermoplastic resin and with double insulation	<input type="checkbox"/>
STNK Series one threaded conduit entry	Standard: M16
Protection degree	IP67 according to EN60529 with cable gland having equal or higher protection degree

GENERAL DATA

Positive opening operation	NC contact
Utilization category	AC15 A600
Insulation resistance	100MΩ min (DC 500V)
Contact resistance	25mΩ max (Initial)
Travel for positive opening	Various
Max Actuation Frequency	2 cycles/sec
Enclosure material	UL approved glass-filled polybutylene terephthalate
Actuator material	Stainless steel
Operating temperature	Min -25°C (-18°F) / Max 80°C (+176°F)
Mechanical life expectancy	1x10 ⁶ cycles min
Electrically life expectancy	150.000 cycles min
Vibration	IEC 68-2-6, 10-55Hz ± 1Hz, Excursion: 0.35mm, 1 octave/min
Conduit entry	Various
Fixing	2xM4

ELECTRICAL DATA

Thermal current (Ith)	10A
Rated insulation voltage	600V AC
Rated impulse withstand volt	2500V AC
Pollution degree	3
Protection against electric shock	Class II (Double insulation)

STANDARDS & APPROVALS

Standards	EN60947-5-1, UL508, EN50047, EN1088
Approvals	cULus, EAC and CCC for all applicable directives

QUALITY MARKS

MAIN FEATURES

- Fits on 25 mm tubing, ideal for small, light weight guards.
- Contacts: Slow action 1NC/1NO; 2NC - Snap action 1NC/1NO.
-  Positive opening mechanism.
- Double insulation structure.
- Eight possible actuator entry points, easy to install.
- 90° and straight key.
- IP67 enclosure rating.
- Robust stainless steel keys.

DATA TYPE APPROVED BY UL

Utilization categories:

STNK SERIES	Q300	A600	1 NC/1 NO Slow Action 2 NC Slow Action
		B600	1 NC/1 NO Snap Action
		A300	2 NC/1 NO Slow Action (3 poles) 3 NC Slow Action (3 poles)

Data of the housing type 1.

For all contact blocks use 60 or 75°C copper (Cu) conductor and wire size No. 14 - 18 AWG.

Terminal tightening torque of 7.1 lb in (0.8 Nm).

In conformity with standard: UL508, CSA 22.2 No. 14 - 10.

Please contact our technical service for the list of approved products.

PROTECTION CLASS

IP67

These series switches are all IP67 rated.

DOUBLE INSULATION

Materials of group II, according to IEC 536, are made with double insulation. This consists of doubling the insulation capability by means of an additional divider in order to eliminate any electrical shock risk and avoid the need for any additional protections.

POSITIVE OPENING

A limit switch complies to the specification when all the normally closed contact elements of the switch can be changed, with certainty, to the open position (no flexible link between the moving contacts and the operator of the switch, to which an actuating force is applied). Positive opening doesn't apply to NO contacts. Control switches with positive opening operation can be equipped with either slow-break or snap action contacts. In order to use different contacts on the same switch, it is necessary to electrically separate them; otherwise only one contact can be used. Every positive opening control switch must be marked on the external housing with the symbol on the left.

STNKO1: SAFETY LIMIT SWITCH WITH RIGHT ANGLE KEY

STNK	01	X11	M
Series	Operation Key Types	Contact Types	Thread dimension of lead exit
	01 - Right angle key	X11 - 1NC/1NO Slow Action W02 - 2NC Slow Action Z11 - 1NC/1NO Snap Action W12 - 2NC/1NO Slow Action W03 - 3NC Slow Action	Standard: BLANK - M16 On request: M - M20 N - 1/2NPT G1 - PG11 G3 - PG13.5 C - Connector
