

5 & 8 Port Super Compact Unmanaged Industrial Switches AES5B/8B Series

ASI AES5B and AES8B series of industrial Ethernet switches are industrial 5 and 8 port Ethernet switches that support IEEE 802.3/802.3u/802.3x with 10/100M, full/half-duplex, MDI/MDIX auto-sensing RJ45 ports. The AES5B/AES8B switches are rated at temperatures from -10 to +60°C. The switches can easily be installed on a DIN rail as well as six different panel mount options. The DIN rail mounting capability, wide operating temperature range and the IP30 housing with LED indicators make the plug and play AES5B and AES8B switches easy to use and reliable. The switches feature dual power inputs, 12 to 36 Vdc and 10 to 24 Vac. ASI XCSD15C (24Vdc, 0.6 A) and ASIXCSD30C (24Vdc, 1.2 A) Power Supplies are available (sold separately). Other models are available on special request.
